

How to Know Which Courses I Need

In order to know what courses you need for your program, use the **Degree Audit** feature.

Degree audits provide a live look at your transcript in relation to your degree program. The degree audit will list all the courses you are required to complete and will display the grades you've earned along the way. It is a perfect resource to figure out which courses you've already taken and which ones you still need to graduate.

How to Know Which Courses I Need

1. Login to my.ahu.edu
2. Select “Academics”
3. Select “My Degree Audit”

4. The next window will open and default to your current program's curriculum. You can also see your progress within your program. Continue by clicking “View Audit.”

X B.S., B.S. Diag. Medic...

☒ Waiver ☐ Needed

X BS - Diagnostic Medical Sonography (0 / 1...

X Sonography Cognates 0 / 24 credits

X Licensure Validation 0 / 45 credits

X General Education Courses 0 / 27 credits

X General Education Courses 0 / 27 credits

[View Audit](#)

5. Your degree audit will overview all courses required for your degree, and it will be divided into different sections for easy understanding. In **red**, you'll see courses that still need to be completed. If you have any questions regarding your degree audit, please reach out to your Student Experience Manager.
