

## How to Know Which Courses I Need

In order to know what courses you need for your program, use the **Degree Audit** feature.

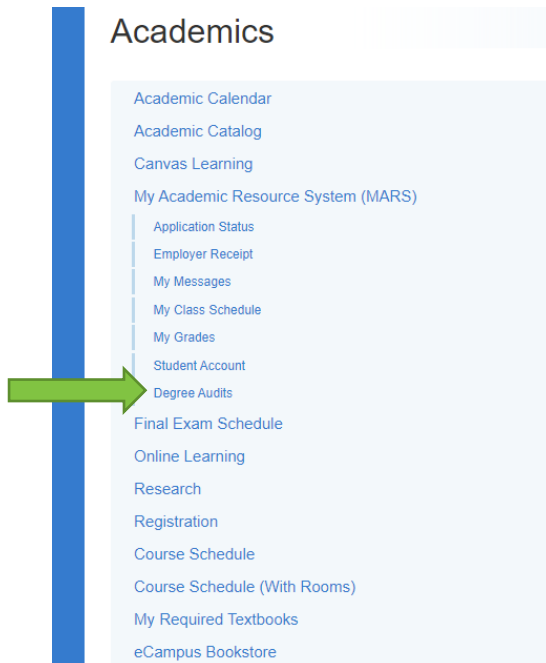

Degree audits provide a live look at your transcript in relation to your degree program. The degree audit will list all the courses you are required to complete and will display the grades you've earned along the way. It is a perfect resource to figure out which courses you've already taken and which ones you still need to graduate.

## How to Know Which Courses I Need

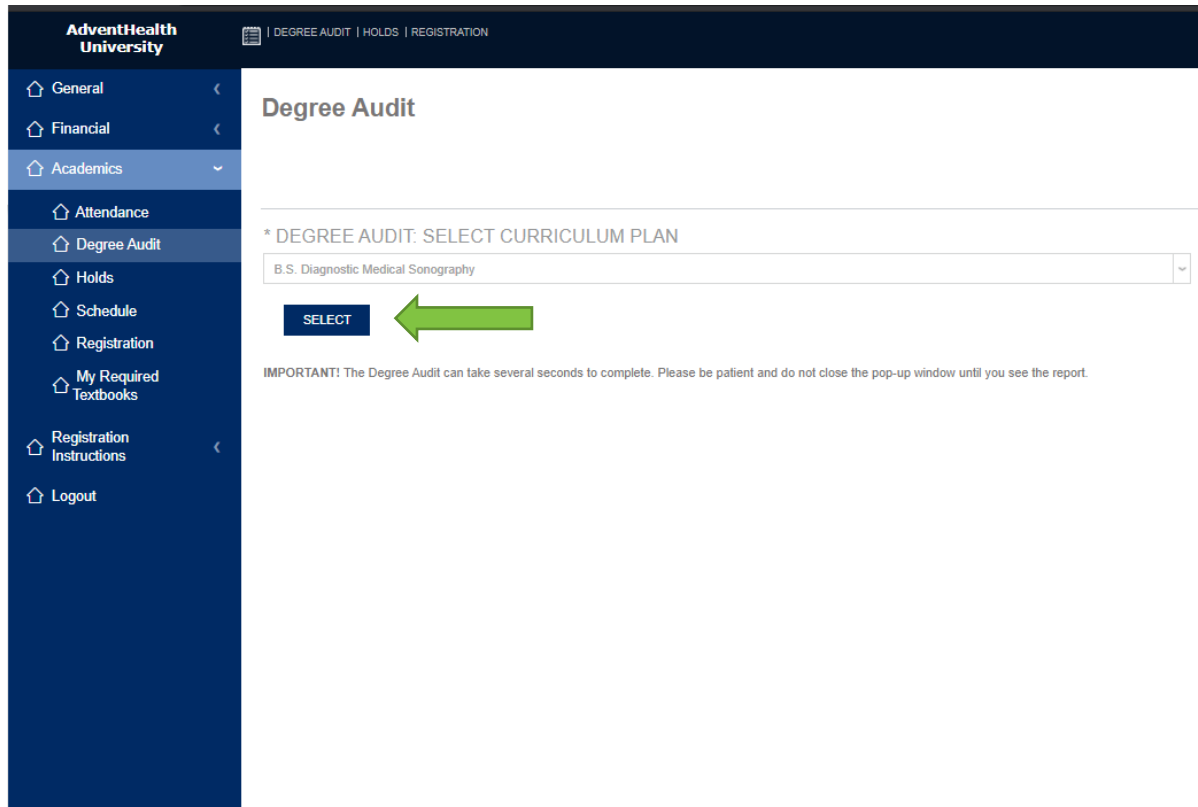

1. Login to [my.ahu.edu](http://my.ahu.edu)
2. Select “Academics”

3. Under My Academic Resource System (MARS), select “Degree Audits”

4. The next window will open and default to your current program's curriculum. Continue by clicking "SELECT".

### Degree Audit

\* DEGREE AUDIT: SELECT CURRICULUM PLAN

B.S. Diagnostic Medical Sonography

**SELECT**

IMPORTANT! The Degree Audit can take several seconds to complete. Please be patient and do not close the pop-up window until you see the report.

Your degree audit will be divided into different sections for easy understanding. Be sure to read the row of instructions above each section. The red (r) indicates the course is required for your program. If you have any questions regarding your degree audit, please reach out to your Academic Advisor or Online Student Manager.

NOTE: Transcript earned credits and degree audit earned credits may have slightly different totals due to having slightly different inclusion rules.

Course ID	Description	Credits	Status	Grade	Earned Credits	Year/Sem.
<b>CORE CURRICULUM COURSES</b>						
<b>Requirements</b>						
				<b>BSDMS Core Requirements ( Type :Credit Hours Number : 27 GPA : 2.00 )</b>		
Must complete ALL courses with a minimum grade of C. No more than two courses may be repeated in the following combinations: one Sonography course and one general education course, or two general education courses
